

Enrichment Exercise #2

Take a look at the Disney Balance Sheet:

https://brightspace.nyu.edu/content/enforced/161920-SP22_STRN-NB_110_NC_001/exercises/Lesson%207/Disney%20B_S.pdf

- Compare the Current Ratio for Disney the 3 years 2016 and 2015. Was there a change and what do you think of the change?
 - Explanation:
<https://www.stock-analysis-on.net/NYSE/Company/Walt-Disney-Co/Ratios/Liquidity>
-

Current Ratio = Current Assets / Current Liabilities

2016 Current Ratio: $16,966 / 16,842 = 1.007362546$

2015 Current Ratio: $16,758 / 16,334 = 1.0259581242$

The amount they owe increased more than the amount they own in assets in 2016.
